

MARAIM MOSTAFA

✉ 2001mmjaa@gmail.com ☎ +20 1007633202 📍 Hawally, Kuwait 🌐 github.com/maraimmostafa

👤 OBJECTIVE

Motivated Computer Science and Artificial Intelligence graduate with academic teaching experience and strong UI/UX skills. Passionate about user-centered design and intelligent systems. Seeking opportunities to contribute to innovative technology environments and pursue continued academic and professional development.

📁 EXPERIENCE

Faculty of Computer Science and AI, Beni Suef University

12/2024 – Present

Teaching Assistant

- Assisted in undergraduate courses on IT, and design.
- Conducted labs, tutorials, and supported research activities.
- Guided students in projects and assignments.

CL Solution

06/2023 – 11/2024

UI/UX Designer

Kuwait

- Conducted user research and usability testing.
- Created wireframes, prototypes, and high-fidelity UI mockups.
- Developed personas and journey maps.
- Used Figma, Sketch, Adobe Creative Suite.
- Collaborated with cross-functional teams.
- Analyzed user feedback and improved designs.

🎓 EDUCATION

B.Sc. in Computer Science

2013 – 2023

Faculty of Computer and Artificial Intelligence Beni Suef University

- Overall Grade: Very Good
- Graduation Project: Excellent
- GPA: 3.5 / .0

🧠 TECHNICAL SKILLS

Programming & Tools – Python, Flask, Oracle, Microsoft Office, Figma

IT & Networking – Networking, Firewalls, Active Directory, Identity & Access Management

Design – UI/UX, Prototyping, Wireframing

Other Tools – Ticketing System

PROJECTS

Graduation Project - Calories Estimation

- Object detection using TensorFlow
- Image segmentation with GrabCut
- Backend integration using Flask
- UI/UX design developed with Figma
- Data visualization with SSRS
- Built data tables and database diagrams

Vulnerability Scanner

GitHub: <https://github.com/MaraimMostafa/VSp>

Intrusion Detection System

GitHub: <https://github.com/MaraimMostafa/IDS>

Password Manager

Developed a secure password storage and retrieval tool

SOFT SKILLS

Communication Skills

Time Management

Self-Organization

Problem-Solving

Team Collaboration
